

# Phototherapy Eye Masks

## Bili-Bonnets®

The **Bili-Bonnet**® stretches open to allow Bili-light to penetrate the entire head. It rests on ocular face bones and removes pressure from eye and face. The **Bili-Bonnet**® is reversible made of Visco-elastic Foam & Brushed Nylon. The securement tabs allow attachment at any angle to maximize fit and minimize slippage.

**Compression Technology**

### Features:

- Patented Bonnet helps mask stay in place and allows bili-light to penetrate the entire head
- Tested and certified to protect infants' eyes
- Compressed ocular space for comfort
- No tape or adhesive to harm skin
- Low-profile hook & loop tabs to adjust size
- Available in 3 sizes (Newborn, Premie & Ultra Premie )
- Single-Patient Use
- No Confusion
- Easy to apply
- No straps to frustrate
- No adhesives to damage skin
